Dear Vicki and Jim,

It was still hot last night so we put the card table out on the front porch and had dinner out there where it was nice and cool. Then we played bridge out there until about ten o'clock. We also put a lamp out there and there were not even any bugs attracted to the light.

Jack Goldingsay is back and was interviewed for some state job ^{along} with several others and he was given the job. He has to go to Berkeley the first of August for a month's training.

Mary went with me yesterday when we took Mrs. Solskov up to Snoqualmie Pass. The falls were beautiful and everything up there has been fixed up and built up so it is quite a tourist attraction.

We had lunch up there at one of the picnic tables. Sonja gave me this list of names and addresses. Let me know the time of your plane arrival.

Love, Mom.

Mike is going to computer school. He isn't allowed to pilot a plane any more after the two accidents he had.

Terry Tiffick is also some place in Calif. but Sonja doesn't have his address.
